Schooner Yulan of Machiae Wrecked off Thatcher's Island.

Thrilling Experience as Told by Capt. Garnet.

FOR LATEST DESPATCHES SEE SECOND PAUF

PERILS OF THE SEA.

Bosron, Oct. 12. The two misted chooner Yulan, Capt John Garnet, of and from Machias for Boston, was abandened off 'Chatcher's Island, Wednesday morning, a complete wreck. The crew was landed at this port last night, by the Provincetown fishing schooner Sea Fox. Cupt Garnet tells the following story of his thrilling experience and narrow es cape from death. The Yulan sailed from Machins, Me, Oct. 4, with 112,000 feet of lumber for Boston. Our trouble began shortly after leaving blacking, as heavy weather was encountered and we were obliged to makt. Port Člyde, Me : for a harbor

We salled from the latter port at a o'clock in the afternoon of Oct 9, with a fair wind and good weather, which, however, did not continue very long

Early on the 10th the schooner inn into a southeast gale which intreased in force outil it blew almost a hurricane. We shortened sail and endiavored to weather the storm, but at 7 that more ing the vessel was found to be leaking At 9 39, when 10 miles northinst from Thatcher's Island, the vessel bycame wholly unmanageble and was wallowing in the

Trough of the Sea We knew that the vessel was doomed, but before we could cut away the boat the schooner split open and capsized, turning bottom side up

The crew and myself were standing on

the deckload of lumber when she went over and as we slid away from the wreck we secured enough of the rigging to lash some of the boards together, making a raft upon which we drifted in a northeasterly direction. The sea was running very high and the boards with which the raft was made, became loosened, and one by one drifted away. It was a question of only a short time when the raft would break up and we would be drowned. I had tied my red figured shirt to a stick and used it as a signal of distress without, however, much hope of it being seen. But fortune adandoned we sighted a bark in the dis-

tance, which had seen our signal This was about 4 r M and an hour later the bark which proved to be the Hudson, of New York, from Boston to Montevideo, hove to near us and came to our assistance. The sea was running so high that their boat could not get near the raft and they were obliged to haul us aboard by means of lines. The cook who was injured when our schooner ap sized, was entirely exhausted and had to

Lifted Into the Boat The bark was hove to all night and a

. A. M. Thursday forenoon, we were transferred to the fishing achooner Sel Fox which landed us at the wharf last

The crew of the Yulan included (ap John Garnett, of Machias, mate George Hunt, of Halifax, N. S., cook Charles Foss and seaman Thomas Luwin, both of East Machias. The men lost everything save what they stood in The luian was a two-masted schooner, \$8 tons register, bullt at St. John, N B, in 1873, and was owned by J k Ames, of Machias, uninsured The cargo of lumber is thought to be insured Capt. Garnett entered protest this morning

THREE STRAIGHT.

Joe Patchen.

the Magnificent Race.

Mile in 2.10.

Stoux City, lowa, Oct. 12 Twenty thousand people, yosterday, anw Robert J beat Joe Patchen in a magnificent race if three straight beats, in 2.06, 2.06 and 2.032, the latter within a second of the race record.

In the first heat Patchen got the pole They went away together and on the first top Patchen drew a length abead, holding! It at the quarter Down the back stretch Robert J reduced the lead to half his length and in these positions they went around the turn and out into the stretch, Patchen still held the pole and his lend Almost under the wire Robert J. palled himself a little nearer the ground and drew up till they were nose to now. The King of Pacers was too first and went under the wire first by a head; time 2.09.

The second heat started with Robert J as the pole and half a length in the lead. The horses went around just as they started, Robert J at one time on the back stretch having his lead reduced to half a length. They turned into the stretch together

stretch having his lead reduced to half a length, but diew it our again to a length. They be the without so close it could hardly be told which led till they were close to the stand. Patchen a rose was just on Highert J. a finit, as they went under the wire. Thus 2.06. Ribert J. won the third heat easily, leading at the wire by fifty yards, although he was pushed close till they entered the home stretch. Dime 2.04. J. by quantum, 12, 1.04, 1.35, 2.03. In mac was for a purse of 55,000.

Fantisj, the four-year-old record trotter, made a exhibition mile in 2.10.

### TRAIN HELD UP.

Robbers Secure Four Bags of Gold on an Overland Train.

SAN FRANCISCO, Cal., Oct. 12 A report from Sucramento states that the west bound overland train due there at it o cleck last night, was held up by two men about six miles below this city last night. The train robbers covered the engine rand fireman with guns and compelication to accompany them to the express car Messenger Page shot twice at the bandits. The onginear and fireman called upon Page to open the door as itstratan robbers were going to shoot them if he did not, and were prepared to blow up the car with dynamite.

He compiled with their request in order to save their lives and the robbers locted the car of tour large of gold, the amount of which is unknown. They then cat loose the engine, boarded it and ran toward the city. The engine was then released and set on a wild run toward the train, but by the time it had reached its destination the steam had run to low that the collision caused little damage. The ribbers made their compellation arrived here at 12.30

STORIES OF DISASTER Wednesday's Storm Along the Coast

Groces Groces Coast
Groces R. Mass, Oct. 12 Capt.
Hattleid, of the British schooner Athol,

### FOREIGN NEWS. The Czar's Condition

The Czar's Condition.

London, Oct. 12. The Dally News correspondent in Vienna telegraphs Russiam Embassies abroad have received official details of the Czar's condition. It is admitted to be very grave. The most difficult symptons to be combatted are this great weakness and continued drow-class. There is hardly a meni at which he does not drop asleep and he has to be aroused before he can be helped out of the room. Nevertheless it is hoped that he will survive the winter.

Eritish Steamer Ashore.

he will survive the winter.

British Steamer Ashore.

London, Oct. 12. Steamer Chicago,
(British), from Sunderland for Baltimore, which went ashore at Port Errel,
Scotland, is fast on a ridge of rock surrounded by deep water. Her forefoot is
gene und she appears to be greatly
damaged under the bilge. There is a
hole 20 feet long in her fore compartment. It is thought she will be a total
wreek. Tendered an Ovation.

ANTWERF, Oct. 12. Baron Dhands, Commander of the Belgian troops in Congo State, returned to-day from a 3 years bloody but victorious campaign against Arab slave traders in that district. He was given a tremendous ova-

Condensed Despatches.

The German-American reform union at New Your Thursday night, endorsed Wm. L. Strong for Mayor and the rest of the ticket of the committee of seventy, with the exception of Dr. William O. Mengher, one of the candidates for coroner, for whom it substituted Dr. H. A. (1) Anderson.

The First National Bank of Kearney, N. H., closed its doors Thursday. The estimated asects are \$250,000; habilities \$160,000. Orderly Sergeant Edwird Shuler, of

Company A, lith New York regiment, was fatally shot in the barracks at Forb Parter Friday morning by private Thomat Marriott. The latter was arrested. A Lakeport stage was held up by a lone highwayman near Pleta station, Calland the Wells. Fergo box taken. The amount secured is not known. NOTE OF WARNING.

Robert J. Wins the Race with Chinese Government Unable to The Recent Gale on Newfound-Longer Protect Foreigners.

for Restoration of Peace.

Eantasy Makes an Exhibition Large Amount of Supplies Pour- Fishermen Compelled to Abandon ing into Tien Tsin.

LONDON, Oct. 12. The Times has this despatch from its Tien Tsin correspondent. The recent withdrawai of English and other families from Pekin appears to have been the result of a Japanese ruse. Information was imparted confidentially from Tokio of an intended descent upon the coast of the province of Pechili and attacks upon Pekin. This induced the foreign ministers to take measures for the security of the women. The Japanese expected to excite Pekin and its population, but among the Chinese the effect has been rather to rouse the court to a resolute defence of the Empire Popular feeling in Pekin and Flen Psin is unusually friendly to foreigners, whom the natives regard as a sort of piedge of safety.

What Victory in the East Means St. Piltershure, Oct. 12. The No-

What Victory in the East Means Sr. Pt.Tranning, Oct. 12 The Novosti says in the event of her victory, Japan will establish herself firmly in Corea and thus become a constant menace to Russia. At the same time China will threaten Russia from Manchuria. The result possibly will be that we shall be unable to maintain our Siberium frontier. The only means of averting this is to send troops at once to Corea and Manchuria and annex both Great Brithing Circular.

Great Britain's Circular VIENNA, Out. 12 The Politische correspondent says that on the sixth, Great Britain addressed a circular note to the Britain diplomatiets accredited to the great powers, directing them to open negotiations, with a slew of affecting and the great powers, urretting them to open negotiations with a view of affecting an understanding as to the measures to protect Europeans in China, also to de-termine the limit to which the powers would permit the Japanese to advance

In China.

The correspondent confirms the report that the Chinese government does not consider itself able to guarantee longer the safety of foreigners in the Empire. China has sent a notification to all the

The St. Petersburg correspondent of the same journal says Rossia regarded this warning as so serious that she timediately rusolved on measures ito protect Possians in China, but, not wishing to agt singly, she entered into negotiations with others who were interested.

tions with others who were interested.

Will Not Interfore with Course of Events
I ONDON, Oct. 12. The Illines' correspondent in Paris says that negotiations are proceeding among Germany, France, the United States, Russia and England, with a view to diplomatic section for the restoration of peace in the east None of these powers, the correspondent says, advocates the interfering with the course of events by other than diplomatic means

advocates the interfering with the course of events by other than diplomatic means.

The Central News correspondent in Wi-Ju gives further details of the buttle reported yesterday from Toklo. He says that the Japanese force had been greatly delayed in its advance by the batness of the roads. The heavy guns could be brought forward but slowly and the troops were compelled often to wait for supplies.

The ploneer troops had to be used repeatedly to make the roads passable. The main Japanese column reached Yung Chou, a short distance to the south of Wi-Ju, on Oct. 4. There was no sign of the enemy. Four days later the stouts who had been sent out toward Wi-Ju, reported that a small Chinese force still occupied the city. The strength of the enemy was estimated as about 2,000. A strong body of lofantry and eavairy, supported by light artillery, was thrown forward at once.

The Chinese offered little resistance. They retired before the first attacking party, and eventually broke and field across the Yalu. The Chinese loss was hardly more than a hundred killed and wounded The Japanese line of communication is now complete throughout Corea.

The correspondent at Toklo says The

limit the war is possible, cause actorishment here.

The government cannot stop the war until the United States demands shall have been satisfied. There must be guarantees that China will not interfere forther with Corea and an ample war indemnity must be paid.

The Tion Tila correspondent of the Central News says: Li Hung Chang has closed contracts with Krupp's agents to supply the government with guas and ammunition, on the condition that the same shall be delivered before the closing of navigation for the winter. Large supplies are coming to the city from the Canton and other arsenals.

Canton and other arsenals.

VFRY VAI UABLE AND FREE TO ALL.

If you have not already accepted this great free offer, don't lose another minute. It tells you how to be well and strong. The most successful living specialist in curing nervous and chronic diseases, is Dr. Greene, of 34 Temple Place, Boston, Mass., who makes the following gonerous offer. Write him about your complaint, tell him just how you feel, and he will answer your letter, describing your case and telling exactly what your trouble is. He gives most minute attention to every detail, and makes you understand instantly just what alls you. And think of it, all this costs you nothing. He makes a specialty of treating patients through letter correspondence and is having wonderful success. He is the discoverer of that world-renowned medicine, Dr. Greene's Nervura blood and nerve remedy, which is constantly corne thousands of people. Any one not living in the largest cities will appreciate this splendic opportunity to consult, entirely free, the highest medical authority, without leaving their homes, thus saving the time and expense of a trip to the city, and also the large fee charged by other and less skilful physicians. Write him at once, and the probabilities are you will be made well and strong.

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the thood, local applications can do no permanent good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

COMMON SENSE

Hood's Pfils cure constipation by re-storing peristrictle action to the allumen-tary canal.

A WONDERFOL CONQUEROR.
No disease is more common among the pepple than serofula. Handed down from generation to generation, it is found in hearly every family, in some form. It may make its appearance in droudful running sores, in swellings in the neek or goltre, or in eruptions of varied forms. Attacking the marques membrane it may be known as entarrh, or developing in the party in the party in the party is the party in the party in the party in the party is and often is the party in the party angs it may be, and often is, the prime

case of consumption.

In whatever form scratule may manifest itself, Hood's Suragnarilla is its inveterate for and conqueror. This medicine has such powerful alterative and vitalizing effects upon the blood that every trace of impurity is expelled, and the blood is made rich, pure and healthy.

I have used Adamson's Balsam in my family many years and have found it of great value in all lung kroubles. We use it for all kinds of colds, and get good results every time. We have a boy 2½ years old who was cured of a very severy cough in August.

Yours, very respectfully.

ISAAC REED.

mployment of labor in New Lighting as compared with [92] [27] per cent in shapes in New England the average reduction d wages for the individual cirner was sit a better showing that is neede to

Dr. A. Centil Devic his sem Obgravetal failure to de mymots of the portra publication it deiktied for whole day to me a year arout the Admin Holmas was dead thought nk their who my ressed his own individu ahty so trougly alon his week. To read him was to know him and to know New to love him Vertangly no American of our time, with the possible sception of Lowell was so dear to the Pritish people To no personally there re special reasons which multi-all be aid appeal to me with great intensity His medical training proped out Between ar commote profession de exquisite ays that the mind of the bigot is like the throw into it the smaller it grows. And, letter even than him abyle and injunow indge and poetre, thought are the broadness of heart freedom from are the trouding sectional projudices of nature. All of these Dr. Holmes had as no witter of our times his had them, and it is his use of them which has made his name loved and re-

wherever Lughsh is spoken

as contourd summing up the rea why Hill muss be defeated. rerell Mysigs "No patriotic Demo craffwill make up his mind as to his duty to his party and to his country withdu beyong considered what the incyttable consequences of Hell's success in the The tron would be the tells no a scalla the Democratic parts of New York that say of his friend. There is no organiza tion whose of jeet is plunder, and whose method of political warfare is fraud, that doce not look up to him as its natural champion And justly so A to in May pard a case sought to clothe crime committed at his beliest with the juda odcrimine, so he would, it elected to the Governorship again, exhaust all the ce sources of his cumning and all the powers of his office to fister the Tyoke of famming Hall upon the neck of this municipality and the yoke of the State machine upon the State, more firm! than ever lamming and the machine with all the subscryions rings of publi priferers, would after such a victory of their idol, feel themselves thenceforth safer than ever against any attempt to drive them from power, and their lasolence and rapacity would know no bounds. The Democratic party would helpicarly be given over to the undisputed mastery of its worst clements, and the people of the State be delivered hand and foot to the mercies of organized

The nomination of Nathan Straus by the Lammany heelers is so transparent that even the Demgoratic papers do not attempt to conceal its real purpose. The

attempt to concent its real purpose. The New York World says:

The nomination of Nathan Straus as its candidate for Mayor is my indimission by Tammany Hall that it days, not face the voters at this time with a hieraber of its organization, or even with a candidate known to be in sympathy with it. Mr. Straus is not only a Clevelland Democrate but he is a close personal friend of President Cleveland. Ho was one of the anti-anapper delegates to the Chicago convention and he has never affiliated with the Tammany organization. In placing him at the head of its tickt Tammany's obvious purpose is to use his unblemished personal character, his reputation as a solid business man and his hold upon the masses of the people through his charities as a solid business man hide from the consequences of their misdeeds.

Mr. Strauss has heretofore enjoyed good reputation, but he has not im-proved it by allowing himself to become the tool of the corrupt ring that has ruled Now York city with a mailed hand However good his intentions may be he would simply be swept of his jeet should be be elected, as he would be completely hedged in by bosses, who, although they are ready enough to play the rule of pentent in the hope of deceiving votors, would at once resume business at the old stand if again successful. Mr. Strauss Tammany methods, but he would be powerless. If the people desire to get might deplore a continuance of the old rid of Tammany rule they now have the opportunity of a life time as the organi-ration has confessed its desperation by ignoring the claims of its own members

in making the nomination.

Mr. Morton's letter of acceptance pieents for the consideration of the voters New York a succinct and lucid review the lasues involved in the pending ampaign. Mr. Morton well says that Federal and State issues cannot be dis-sociated in existing chromstances. The sociated in existing effection stances. The election is New York is bound to have in influence on the National courtest of 1896 Mr. Motton's description of the tariff law as "a thing of incongruities a patchwork of Profection and Free Trade, is admirable. Equally clear and to the point are his reporter on southers. to the point are his r marks on matters directly at issue in the State canvass. honest elections, economical State administration and good city government.

Chairman Babcock of the Republican Congressional Committee, why the Republicans should not organize the next House of Representatives. The commit-tee has not indulged in any functful estimates It is not sugaged in rambow clusting. It has been an earnest, practi those districts where there was reason-able prospect that a Republican Con-gressman could be cleered. It is fair to einte that the campingn has been con-ducted upon the theory that the Repub house should secure control of the next House if they can, The commerce has not approved tid policy, which was advocated by some Republicans, that It is not expedient for Republicans to assume

The phenomenally large registration Lucsday, the first day the books were open, industrial a greater interest in the coloning election than has been seen in in New York (sty and Brookly); on Lucsday, the first day the books were colong the toon than than been seen in those critis in twenty-three years. In New York cuty the total foots up 102, 900 as against 58, 120 in the first day of last year and 92,714 on the corresponding day of 1892 a Licendential years in Brooklyn the total is 75 760 as against esses last year and to,733 in 1892. It threat the three rigistration days to color there will perhably be 150,000 money on the poll books in New York and 200,000 in Brock yo. These figures would mean a vote of about 500,000 in the two cities which is \$0.000 larger than was cast it 1892. There is no doubt that an immense wate will be policily in Dimecon a correspondence which is call consciidung New York and brooklyn tion the olium halling at re-

The Corn Pack of 1894

A fair average crop of gammed sweet corn for Malac would be about 000 000 cases alth ugh It has fallen consideraad that many of the amather packers had temporarily at least gone out of the business it was thought a month ago that the product would be about 3 5 000 to 400 000 cases but the steld per some was enormous under exceptionally favor at he we ather conditions.

While the average per acre is from 1 200 to 1 300 cases it some districts of the pro-duct owing to the come etc illing out of very car it aurounted to = 000 enses, which is unprecedented. Further owing to the sheetage of cone and of the te make then theusands of bushels were turned back on the farmers the packers scribing with them on the best possible As an illustration one large firm paid ou \$1 000 and another \$5 000 and gave the coin to the farmers for A fair estimate of the proking of 1894

about 5 feet,8 luches tall; light blue eyes and brown hair They are supposed to have gone to Canada. Any information regarding them is wanted by Tibbetts & Metealf, detectives, of Lewiston. During the summer and fall, there een many visitors to the Young Men's Christian Association building besides the young men for whose benefit it was erected and is kept open. Many phople, strangers in the city, have been in and looked over the building and but one remark has characterized them all--- What a fine building !" Its beauty, attractiveness and convenience are noticed by all who enter it, and it is very often said. "Bangor ought to be proud of such a building " It is indeed an ornament to

Nearly every section of the country is represented upon the visitors' register. The new metallic circuit telephone line that is being built across the country to Bar Harbor will be a great convenience to the people of that famous resort. Lineman Howell bas just talked over this line from Augusta to Camden and sald every word could be distinctly heard. This was the first connection made over the new line. It will continue direct across from Camden to Bar Harbor and will also reach Bangor, Ellsworth, and other important points in this section. It is being built by the New England Telephone and Telegraph Company, and rossing the town of Union cost the com pany \$600. The idea is to construct another line next summer to Bar Harbor, if the season at that place is a lively one. This will give this resort telephone connection with New England and in fac-

elephone.

open up new land and settle upon it. This is particularly true of Acoustoo county, where land is not to be had by those who wish to make first settle-ments. Land Agent Oak says that the land office has received many applies tions for such land from people in differ ent parts of the country who have had at low prices.

The legal status of a scare is to be established by an action pending in Portland, wherein Alexander B Stephens suts the Portland Water Company for damage to his real teath near the reservoir, claiming that on account of the burst last year, forks are afraid to buy his house lots which previously sold at 25 cents a foot, but now don't sell at all the wants \$15,000. He wants \$15,000. I

Portland Argus Patrolman White has discovered an unusually sad case of destitution Charles McSwiggen, formerly a driver in the employ of Anad Sawyer, the stable keeper, has di appeared, the officer said, as if the earth had opened and swallowed him up Where he has gone his wife and publes do not know, nor does any one uppens to About a week ago he was driving a carriage. The latter was found standing in the street, but the driver was not to be seen that very day his wife lay sick in bid with her two days old haby by her side. One of the Children had fifty cents, which somebody had given him but this was missing when the father left his home, near the corner of Orange and Bond streets. There was almost nothing to the both weard the prophen we

Bond streets There was almost nothing to eat in the house, and the mother was to eat in the house, and the mother was too weak to go out to work. Upon learning of the state of affairs the officer went to the house and did all he could to tumove their immediate wants. He happened to mention the silan to Mr Domahue, the clothler, who did not even ask the unfortunate woman's name but handed the officer five dollars to use us he saw ift for their immediate relief there is not the slightnet cira, to the man's who reabouts, and his sudden disappearance can he in no way accounted for file poor wife is thmost distracted with grief, for she fears that something may have happened to him she is a very estimable woman, who, when hig good health, works hard to help support lierself and children.

The weak of putting in a sewer at

Fig. 2. The work of putting in a sewer at Brunswick is attended with more difficulties than usually embarass a job of this kind Digging through a quick-saud is, in many respects, worse than drilling through a solld ledge "Neverfailing" wells all along the route bave rone fire, as along start trentles. failing" wells all along the toute have gone dry, gas pipes along the tremlies have settled so they will have to be relaid, and Tuesday a water pipe which rims parallel to the sewer; got so low, desnite all the planking used to keep it lo piace, that it burst and drove the workmen out in a harry. The ditch dug leoks like a dam in process in construction so much plank has to be used to keep the trench open, the pumping of water is continuous, and it takes four men to remove each shoveful of sand, one in the trench, one on each platform around and over it, and one outside.

Roland says he ran away because his father did not treat him well. The englisher of a passenger train on

The englacer of a passenger train on the Western Division of the B & M , at The engineer of a passenger main on the Western Division of the B & M, at Saco, Wednesday evening, was lust pulling on to the long from bridge west of the station, when he eighted a hox car on the same track, about 200 sards away. He applied the altbrake, and brought the train to a standardil. The train meniushed out to see what was the trouble only to see the my strious hox, or slowly disappear from view. He car bowled past the Saco station, to the astonishment of the pissengera who were surprised to see a lone car running away. When the train pulled into the station the conductor uncoupled the engine and stated in pursuit of the runnway, which was captured about half way to Old Orchand. When the evening freight was shifting in the Biddeford yard, last before the arrival of the mail train, the station one set half dozen cars on the main line. The supposition is that this car broke away from the others, and bestation, escaping the notice of the train men. The pagengera think they were lucky to escape a collision.

Marriage in Urban and Rusal Regions In the north Atlantic division, which constitutes the principal manufacturing section of the country, a section made constitutes the principal manafacturing section of the country, a section made up largely of urban pepulations, the single are found in smaller proportion than in any part of the country and the married and widelyed in larger proportions. Conversely tile south Atlantic and south central divisions, which are inhost 'purely against much and runk, contain the largest proportion of single poisons and the smallest proportion, of the married. These results are directly, opposed to popular belief. It is assumed that, the development of uban population diminishes the mining of the inarticle. The explanation which nexurally, singlest ristelf is that the larger proportion of marriady so in the manafacturing sections of the country is Anahotemly to the fact-that the matrix white, population at all ages, but also to the fact that the foreign whites who have settled in large numbers in the married or of a marriad only were leither married or of a marriageable age 'it the itim of their thin gration. Found.
